Assignment 10

due date: Tuesday, July 20th, 2010.

Assignment:

1. Represent each of the following rational numbers as a continuous fraction:
   \[
   \frac{1265}{234}, \frac{3453}{2233}, \frac{1276}{3455}.
   \]

2. Find first 10 terms in the expansions of \(2\pi\), \(3e\), \(2\pi + 3e\) as continuous fractions.
